

Better From Every Angle

Crash Barrier GUARD

STOP A FOUR-TONNE FORKLIFT FROM DOING FOUR TONNES OF DAMAGE

Engineered from solid ductile iron and maintenance-free polypropylene, the crash barrier ensures heavy equipment doesn't stand a chance of damaging your customers' walls or facility. Crash barrier is also ideal for creating traffic lanes, framing off areas protecting columns and separating moving equipment from people.

All-angle protection Engineering grade polyolefin Absorbs direct impacts, is self maintaining, clean and absorbs impacts deflects glancing blows Iron components provide strength and rigidity **Zero maintenance** Install it once, peace of mind for years Sits-flush to the **High visibility** floor preventing damage from The best defence is forks and pallets Top-of-the-line anchoring being seen while protecting hardware prevents damage your assets to the concrete floor without sacrificing strength
