

THE FLEXIBLE SOLUTION TO PROTECT RACKING AND ITS CONTENTS

Our **Rack Mounted Guard** is an easy-to-install, high-strength solution to protect racking and its contents. The polyethylene body provides strength and durability to absorb impacts and is flexible to suit a variety of racking sizes. Fitting is easy and quick thanks to velcro straps that simply wrap around the racking leg.

Energy absorbing design

Polyethylene body flexes open to absorb impact energy

Adjustable

All protectors are 550mm high
