

Hand Rail Safety Netting

Now available in 10 metre easy-fit package

Hand rail safety netting creates a barrier between the edge of the mezzanine and the ground below, subsequently preventing any stock falling between the railings and potentially injuring employees.

The netting is made from high-tenacity polypropylene which is lightweight, incredibly strong and almost impossible to damage during normal operation. The netting requires no special tools to fit and can be affixed to new installations or retro-fitted to existing railings.

- Creates a safer working environment for staff and helps to protect stock
- 2.3mm high-tenacity and durable polypropylene stitched cord – other grades of net available on request, at additional cost
- Removable and cleanable
- Choice of either blue or black netting

10m easy-fit package ONLY €74.95 +VAT

Our new Hand Rail Safety Netting – 10 metre easy-fit package contains all that is required to quickly ensure a safer working environment. The package includes a 10 metre length of safety netting and set of fittings to ensure safe and easy installation to your customers mezzanine hand rails. **Call us today on 01925 715761** to secure a package – making an affordable and positive improvement to your customers facility's safety.
