

PALLITE® PIX® PICKING SOLUTION Vertical

Warehouse Partners brings you the new, innovative and award winning flexible warehouse picking solution – PALLITE® PIX® Vertical.

PALLITE® PIX® Vertical is a collapsible, picking solution system made from honeycomb paper and glue that's designed to flex around products.

Designed to support tall thin products, the PALLITE® PIX® Vertical allows for better space utilisation whilst helping to keep products organised.

- **Reduce damages** by safely and easily storing awkwardly-shaped goods.
- **Free up space** by combining multiple pick-faces into a single pallet footprint.
- **Increase pick-accuracy** with clearly segregated pick-faces.
- **Strong pick-faces** to hold and segregate your products.
- **Lightweight** to protect your customers' team from manual handling injuries.
- **100% Recyclable** and made from managed sources.

Dimensions

PRODUCT	EXTERNAL UNIT (mm)	INTERNAL PICK FACE (mm)	PICK FACE CAPACITY (m3)	TOTAL CAPACITY (m3)
PALLITE® PIX® Vertical	1200x1000x1800	250x925x1620	0.37	1.48

Dimensions listed as width x depth x height

PALLITE® PIX® Picking Solutions

Discover the PALLITE® PIX® Range

PALLITE® PIX® is a range of picking solutions that are strong, lightweight, flexible, and designed to consolidate pick-faces – save space, improve pick accuracy and increase pick efficiency.

Create more free space in your customers' warehouses by allowing them to store more product, ultimately increasing the yield of the warehouse space whilst maintaining the ability to flex around the demands of their supply chain and improve their pick efficiency.
