

PALLITE® PIX® PICKING SOLUTION Shelf

Warehouse Partners brings you the new, innovative and award winning flexible warehouse picking solution – PALLITE® PIX® Shelf.

PALLITE® PIX® Shelf is a collapsible, picking solution system made from honeycomb paper and glue that's designed to flex around products. Allows your customers to increase or decrease the size of their pick-faces to help maximise space utilisation.

A single 2.4m layer of pick-faces, ideal for maximising space utilisation in shallow racking.

The PALLITE® PIX® Shelf comes with 3 dividers, creating 4 pick-faces, and an additional bundle of 4 shelf dividers can transform the space into 8 pick-faces.

- **Free up space** – Make the most of otherwise unusable space. Interchangeable dividers allow your customers to flex their storage around products.
- **Increase pick-accuracy** with clearly segregated pick-faces.
- **Strength** – pick-faces strong enough to hold and securely segregate products.
- **Lightweight** – allows your customers to make the most of dead space.
- **100% Recyclable** and made from managed sources.

Dimensions

PRODUCT	EXTERNAL UNIT (mm)	INTERNAL PICK FACE (mm)	PICK FACE CAPACITY (m3)	TOTAL CAPACITY (m3)
PALLITE® PIX® Shelf (4 pick-faces)	2400x600x428	563x550x398	0.123	0.49
