

Labelling and Warehouse Solutions

PALLITE® PIX® Picking Solutions

Warehouse Partners' innovative, adaptable and award winning flexible warehouse picking solutions – PALLITE® PIX® & PALLITE® PIX® SLOTS.

PALLITE® PIX® is a range of picking solutions that are strong, lightweight, flexible, and designed to consolidate pick-faces – save space, improve pick accuracy and increase pick efficiency.

For an insight into how adaptable the system is, check out the examples below. Be it large and heavy products such as car parts, or smaller products such as bagged clothing, you can count on a PALLITE® PIX® Picking Solution to:

- Maximise warehouse space
- Be adaptable – available for free-standing or in-shelf applications
- Fit where required – available in bespoke and standard sizes

PALLITE® PIX®

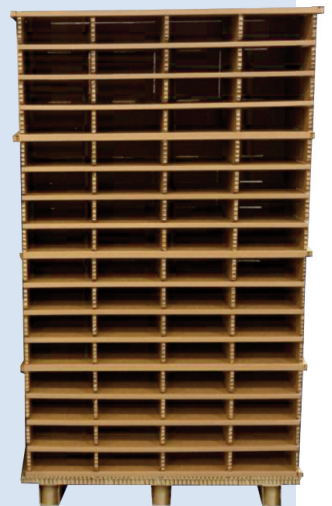

- Flexible pick-faces
- Less than 5 minute build time
- Perfect for bigger and heavier products
- Our strongest storage system
- Ideal for all goods, boxed or unboxed

PALLITE® PIX® SLOTS

NEW

- Flexible pick-faces
- Slim 15mm panel construction allows for a maximised pick face area
- Less than 10 minute build time
- Perfect for smaller and lighter products
- Stronger and more durable than cardboard bins
- Ideal for clothing, fashion, and unboxed goods

PALLITE® PIX® Picking Solutions

Discover the benefits of the new paper-based picking solution set to save customers time and money

- **A range of accessories**

Multiplier Inner shelf doubles the number of pick-faces and is available for any PALLITE® PIX® unit, whilst **PALLITE® PIX Slider** is a strong and durable piece of honeycomb deck with a reinforced handle that sits underneath stock to enable products to be pulled forward for picking.

- **Space saving**

Reduce the space needed by your customers' to store products by combining pick-faces and creating more space in their warehouse.

- **Improved pick efficiency and accuracy**

Reduce pick times and walk sequences by combining pick-faces to improve your customers' efficiency, while clearly divided and well-organised pick-faces with space for labels and tags, will help them find products with ease.

- **Strong and durable**

Durable honeycomb walls and protected edges with pick-faces that are strong enough to hold up to 500kg in each PALLITE® PIX® picking unit.

- **Lightweight and forklift-friendly**

Lightweight to protect your customers' team from manual handling injuries, as well as forklift-friendly to easily move the unit – empty or full.

- **Sustainable**

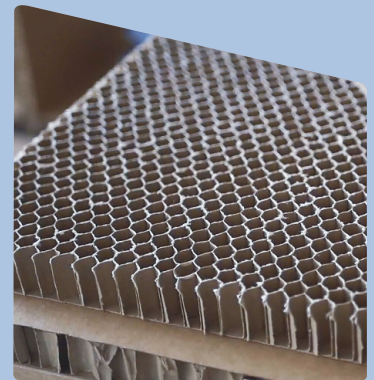

100% recyclable and made from materials from managed sources.

- **Flexible**

Easy-to-fit interchangeable dividers to quickly flex space around products.

- **Fully collapsible – no need for tools or screws**

Build and dismantle with ease and store flat-packed when not in use to help keep your customers' warehouse layout flexible.
